

JAGDAMBA SHARMA

ABOUT ME

Experienced and result-oriented Network Engineer with over **13+ yrs** of extensive experience in planning, configuration, installation, project handling and troubleshooting of large scale networks. Proven expertise in working with leading hardware vendors such as Cisco Devices like (Cisco ASR901, 903, 920, 9k, 9010, NCS-540, NCS-560, NEXUS switches) under my company. Support for migration from Legacy to ACI. Routing Protocol VRF, DMVPN, OSPF, IS-IS, BGP, MPLS, MPLS-TE, QoS, MP-BGP, L2 and L3 VPN, IPV6, Segment routing. VXLAN EVPN, NEXUS, MP-BGP, ACI. Support for RFI for new IOS image and Cisco device. L3/L2 Out, VRFs, bridge domains, EPGs, contracts, and policies.

EDUCATION

College Of Engineering and Technology , Moradabad | 2011
Electronics and Communication Engineering

Senior secondary school | 2005
PCM

High Secondary School | 2002
All Subjects

WORK EXPERIENCE

Reliance PPMSL | 2020 - Till Now

Network Engineer (Ghaziabad)

- Core network audit, analysis and prepare audit report.
- Support for IOS upgradation on Nexus and ACI.
- Support for RFI for new IOS image and Cisco device.
- Make tenants, VRFs, bridge domains, EPGs, contracts, and policies.
- Work With Cisco router ASR9k and Nexus 9300 & 9500 Series ACI & NX OS Switches.
- Checkpoint firewall Management , Policy & Security Rules, troubleshooting & Analysis VPN & Security Services
- Support different types of Maintenance window.
- Follow up for RMA cases.
- Create Planning documents and get approval with customers.
- Support for migration for legacy to ACI.
- Strong understanding of routing protocols (BGP, OSPF, EIGRP), IPSec, QoS, and network segmentation.

Muradnagar, Ghaziabad (UP)

SKILLS

Professional

Core Routing Protocols

- BGP (iBGP, eBGP, MP-BGP)
- OSPF
- IS-IS
- EIGRP
- Static & Policy-Based Routing (PBR)

Advanced Routing

- MPLS (LDP, RSVP)
- MPLS-TE (Traffic Engineering)
- VRF
- L2VPN / L3VPN

Switching

- STP, RSTP, MST
- VLANs, Trunking (802.1Q), VTP
- EtherChannel / LACP / PAGP
- Private VLANs
- Layer 3 Switching

Network Engineer (Ghaziabad)

- MOP Validation and Creation for various Activities as: Microwave to Fiber shifting.
- 1G to 10g Ring Bandwidth Upgrade. NODE Deletion, Addition CSS fiber ring shifting (CSS to AG1 node)
- Work on different kind of TT IM & PM.
- banking client like SBI BANK, ICICI BANK, HDFC BANK ,CANARA Bank Management
- Ensure the proper functioning of the IP based network equipment (Alcatel Lucent, Cisco, ENB sites, Enterprises Sites). Configure and manage Nexus device in data center.
- Coordinating with Cisco TAC for Network related and RMA issues.
- Preparing design document for new setup project.
- MOP preparation, validation for integration and migration. Core
- network audit, analysis and prepare audit report.
- Core and aggregation router software upgrade.
- Configuration , VTEP Setup , Integration with ACI, Troubleshooting VXLAN, Validation & Testing
- Migrate Cisco 903 router to NCS 560.
- Migrate Cisco 920 router to NCS 540.
- Upgrade RSP2B to 3C at Cisco 903 & Upgrade Bandwidth .
- Configure and troubleshoot ACI fabric components (APIC, Spine, Leaf)
- Manage tenants, VRFs, bridge domains, EPGs, contracts, and policies.
- Perform routing and switching configurations and troubleshooting.

Prompt personnel Consultancy Service Pvt Ltd | 2015 - 2017

RAN Engineer (Muzaffarnagar)

- Installed and configured Cisco routers and switches in small to midsize enterprise networks.
- Assisted in designing LAN/WAN infrastructure and implemented IP addressing and subnetting schemes.
- Configured VLANs, trunk ports, and inter-VLAN routing on Cisco Catalyst switches.
- Supported routing protocol configuration including RIP and OSPF in single and multi-area environments.
- Troubleshoot network issues related to connectivity, performance, and configuration mismatches.
- Performed daily health checks, bandwidth monitoring, and device backup/restoration tasks.
- Configured and maintained DHCP and DNS services on Windows based networks.
- Supported wireless network installation and basic security setup including port security and ACLs.

CISCO ACI SKILLS

ACI Fabric & Architecture

- APIC (Application Policy Infrastructure Controller)
- Spine-Leaf Architecture
- ACI Fabric Discovery & Bring-Up
- Node Management (In-Band / Out-of-Band)

ACI Policy Model

- Tenant, VRF, Bridge Domain (BD)
- EPG (End Point Group)
- Contracts & Filters (Allow/Deny)
- Application Network Profile (ANP)
- L3Out / L2Out Configuration
- External EPG

ACI Networking

- VXLAN EVPN (Underlay & Overlay)
- Anycast Gateway
- Multi-Pod / Multi-Site (basics)
- VMM Integration (concept)
- ACI with Nexus NX-OS Mode

ACI Operations

- Faults, Events & Audit Logs
- Health Score Monitoring
- Software Upgrade (APIC + Switches)
- Legacy to ACI Migration
- Troubleshooting Connectivity Issues

Time Management
Communication Skills
Critical Thinking

RAN Engineer (Muzaffarnagar)

- Worked on operation and maintenance of 2G and 3G Radio Access Network (RAN) ensuring high network availability and performance.
- Performed installation, commissioning, and integration of BTS and Node-B sites across assigned regions. Hands-on experience with NEC Microwave (MW) systems for link alignment, commissioning, and troubleshooting.
- Worked on Alcatel MUX equipment including configuration, fault analysis, and maintenance activities.
- Conducted drive tests and RF optimization activities to improve coverage, reduce call drops, and enhance throughput.
- Monitored network KPIs such as CSSR, CDR, HOSR, and took corrective actions to improve network quality.
- Analyzed alarms and performed fault management, root cause analysis, and preventive maintenance.
- Coordinated with NOC, vendors, and field teams to ensure timely resolution of network issues.
- Supported network expansion, modernization, and swap projects as per rollout plans. Maintained site documentation, acceptance reports, and ensured compliance with safety and quality standards.
